Psychic Advice to Connect to Your Divine Guardian Angel

This psychic advice is coming to you through my Higher Self as I connect with the Divine Guardian card in the Isis Oracle Deck. When you pull the Divine Guardian Card from the Isis Oracle, it is a clear indication that you are in the presence of your Divine Guardian Angel. The Divine energies of the Universe and a host of heavenly angels are embracing you in their love. You are transitioning out of Fear and Abandonment into Trust, Acceptance, Unity and Love. The dark night of your soul is coming to an end and the New Dawn is Rising over You

Your Divine Guardian Angel is Speaking to You

If you have been asking if your Guardian Angel is with you or if your Spirit Guide is near, the Divine Guardian card is a clear indication that the answer is yes! Now is the time to connect with your own Spirit, Angels and Guides. Call to them and they will answer. They are right there with you, making their presence known and sending you signals and messages in everything you do. Talk to them as you would a friend and ask them the obvious questions. What's the best way for me to communicate with you?

Your Divine Guardian Angel will speak to you in a number of ways. First you will hear the answer internally as a sudden sense of knowing. This is your Guardian Angel or Higher Self speaking to you telepathically. However, in the beginning you may believe it's just you thinking you know the answer. Then, your Divine Guardian Angel will begin confirming the message to you through synchronicity or meaningful coincidences. You may be led to a book that answers your question or you may hear someone speaking on the subject and you hear the answer that way.

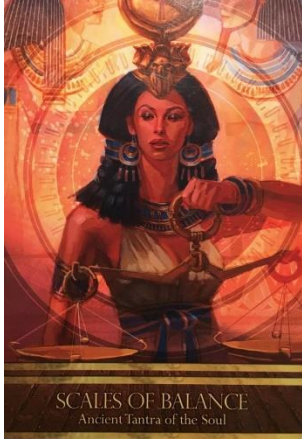

The point to understand is this, you are building a relationship with your inner guide, your Divine Guardian Angel which is your Higher Self. By asking questions and seeking answers you will realize the special connection you have within and you can begin to build upon it by communicating this way.

Psychic Advice by Priestess Sekhmet

Psychic Advice for Releasing and Allowing

The Divine Guardian card is a reminder to Trust the Universe. Understand that you are not alone and that something greater is at work in your life plan. Trust can be extremely hard after living through such Darkness and being disconnected from our source for so long, but learning to trust the Universe is possible with a little Divine Guidance and Support. Ask your Guardian Angel for the Spirit of Trust and your request will be granted.

You may experience some resistance in the beginning as you learn to trust the Universe and develop a new relationship with your Guardian Angel. Fear and anxiety can arise and cause you to doubt the process entirely. However, learning to trust is like learning to back float, at some point you must lean back, relax and trust that you won't sink. By practicing this type of trust, you will come to a point of mastery and realize that just like back floating, trusting the Universe is possible!

The Divine Guardian card is reminding you to let go of any resistance and trust in the guidance you are receiving. Take small steps forward on your spiritual journey and know that developing this relationship will not only bring you spiritual growth, but a more nurturing and fulfilling confidence within yourself.

You and Your Loved Ones are Protected

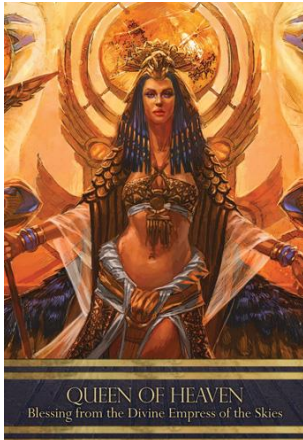

The Divine Guardian card is here to remind you that All is well. Trust and know you are not alone and neither are your family and loved ones. All that you hold dear is guarded and protected. Nothing will fail and there is nothing to fear. The Spirit of Divine Love and Protection is strongly encircling you now. Meditate on your Divine Guardian Angel and speak to her often, reminding yourself that you are never alone. Ask your Divine Guardian Angel to be with those whom you hold dear and know that it is already done, even before you ask. This card is a reminder that you and those you care about are constantly guarded and protected by this powerfully Divine Loving Force.

Psychic Advice for Connecting to Your Divine Guardian Angel

“Rest quietly in a space where you will not be disturbed and close your eyes. Follow your breath into your heart space and imagine that within you there is a sea of golden light flowing. As a wave within this ocean of light arises, you notice a beautiful golden winged goddess rising up powerfully from the ocean. Her wings guiding Her above the ocean and you see Lady Isis above you. She wraps Her wings around you and you feel safe, secure, loved and protected. Her wings naturally open and close around you with Her breathing. Feel the connection between you and know that all is well. She then holds above you a sword aloft, emblazoned with golden scarab beetles, with precious colored gems as wings. From this sword great light is emitted and you feel the light forming a sphere of protection. It descends around you as a golden egg of energy, sealing your entire energy body with the love, light and power of Beloved Mother Isis. You are under Her Divine Guardianship now. When you feel calm, just open your eyes.” *The Guidebook from the Isis Oracle Deck*

For more information on connecting to your Divine Guardian Angel on one on one counseling, please consider booking a one-hour session with me. I would love to share my experiences with you and answer any questions you may have on developing your spiritual connections, spiritual practice or personal guidance on issues in life.
